

THE XSABO GROUP

'Business Network Structuring' –
that is our blueprint for the 'network economy' arising out of globalization.

Our Expertise

A steadily growing international brand, The Xsabo Group has expertise in the following areas:

- Commercial Diplomacy
- Business Networking
- Interim Management
- International Expansion/
Market Entry Strategies

In our multinational engagements, our worldwide highly mobile executives serve global customers globally.

In its particularly strategic African market, The Xsabo Group has initiated high profile projects supporting the corresponding governments' efforts to pave a way for their people out of poverty and thus spur prosperity. This includes powering development through its flagship 150 MW solar power project in Uganda.

Doing Good is Good Business

The Xsabo Foundation, the corporate social responsibility arm of The Xsabo Group, is sponsor of youth income generation activities, including a coffee factory for the youth, and an annual regional youth football and netball tournament as well as a mobile medical youth camp which has to-date provided treatment free-of-charge to over 30,000 disadvantaged and needy people in rural areas.

The Xsabo Foundation is also empowering girls and women groups to produce self-made sanitary pads out of banana and other vegetable fibres ('Fancy Pads'). In Uganda, this is already enabling hundreds and poised to enable thousands of girls to stop missing school during their menstrual period.

Finally, four students attending institutions of higher learning in Uganda and universities in Europe are currently benefiting from fellowships from The Xsabo Foundation.

Our Edge

Experience + Knowledge + People + Culture + Customized Solutions ...
... sustainability combined with intellectual mobility.
Business as unusual!
